

## SAFETY AND CARE AT NERIM TO FIGHT AGAINST COVID-19

Apropos to our earlier statement dated 17-September-2020. We wish to assure all our students and their parents, faculty, and staff that we are fully committed to the safety of everyone who is associated with NERIM.

In the wake of pandemic Covid-19, we have been following all the guidelines and protocols issued by the Central and State Government from time to time. In pursuance of the above guidelines, we are conducting thermal checking on a daily basis before entering the campus, followed by washing/sanitizing of hands.

Sanitization of the campus and vehicle is also done on a regular basis for the safety of all employees and visitors. **As an extra precautionary measure, we have conducted Covid-19 testing on our premises at different time intervals i.e. 13<sup>th</sup> August, 18<sup>th</sup> August and 16<sup>th</sup> September 2020.** Such test reports are available both with state authorities and us.

Covid-19 is the time of crises for the entire world, and it has a profound negative effect on developing countries like India. We can cope with this only through our collective efforts and resilience. The human race has faced several difficult and painful events, and this is one of them. With our courage and united efforts, we shall overcome this too.

We are committed towards the society and will continue to serve the society with all the safety & precautionary measures.

With best wishes to all NERIMians and well-wishers.

NERIM Group of Institutions.
